Paulo

[History](#)

Username:

Required. 150 characters or fewer. Letters, digits and @/./-/_

Password:

algorithm: pbkdf2_sha256 **iterations:** 390000 **salt:** pHBI

Raw passwords are not stored, so there is no way to see them

Personal info

First name:

Last name:

Email address:

Permissions

Designates whether the user can log into this admin site.

☐ Superuser status

Designates that this user has all permissions without explicitly assigning them.

Groups:

[Add](#)

The groups this user belongs to. A user will get all permissions granted to each of the groups.

User permissions:

account | email address | Can add email address

account | email address | Can change email address

account | email address | Can delete email address

account | email address | Can view email address

Specific permissions for this user. Hold down "Control", or "Command" on a Mac, to select more than one.
